WORK EXPERIENCE

Front End Developer

Smartsheet

2021 - current / Bellevue, WA

- Improved the alignment of nested elements with Flexbox, leading to a 27% decrease in layout-related issues in testing.
- Created smooth animations with Vanilla JavaScript for a better user experience, boosting page dwell time by 6 minutes.
- Systemized code management and maintenance with Sass partials and imports, cutting down CSS code duplication incidents by 32%.
- Configured Gulp for automated image compression, **expediting image loading speed by 3.9 seconds** for a faster and more responsive website.

Freelance Web Designer

F5 Networks

2018 - 2021 / Seattle, WA

- Conducted 128 detailed code reviews, which lowered critical bugs by 36% and improved overall code quality.
- Automated syntax checking in Sublime Text, catching errors early and shrinking debugging time by 11 minutes.
- Produced high-fidelity mockups in Figma for 24 client projects, enhancing presentation quality and client approval rates by 68%.
- Led usability testing sessions to identify key user pain points, **uplifting usability scores by 47%**.

Junior Web Developer

Tableau Software

2016 - 2018 / Seattle, WA

- Participated in peer code reviews, providing feedback on React best practices, which **helped resolve 52% of production bugs**.
- Handled API error responses using Axios for error management, minimizing crash rates by 19%.
- Implemented cross-browser compatibility fixes, ensuring consistent user experience across 3 major browsers.
- Monitored deployment logs on Netlify to resolve issues quickly, slashing downtime by 18%.
